学术报告通知

CAS NS Forum (No. 329)

**演讲者: Yuanyuan Zhang, Professor
Wake Forest University, Institute for Regenerative
Medicine (WFIRM), USA.**

题 目: Improve Your Public Speaking and Presentation Skills

时 间: 2019 年 10 月 21 日 (星期一), 下午14:00

地 点: 国家纳米科学中心, 南楼二层会议室

主 持 人: 梁兴杰 研究员

报告摘要:

Academic communication ability has now become one of the important indicators to measure the overall quality of scientific research workers. How to improve international academic communication skills is also an important part for researchers. Professor Zhang will provide advice on how to improve his international academic communication skills based on his extensive academic exchange experience.

个人简介: Yuanyuan Zhang. Dr. Yuanyuan Zhang, Professor, Wake Forest University, Institute for Regenerative Medicine (WFIRM), USA. Dr. Zhang received his M.S. and M.D. at Jiangxi Medical College in China. He completed his residency in urology and renal transplantation at the same medical institution, and then acted as a certified urologist in China. Following this, he completed a two-year research fellowship awarded by the international society of nephrology and trained in the Department of Urology/Nephrology at Christchurch Hospital in New Zealand. He earned the Doctorat EN Medecine (Ph.D. equivalent in the US) at the University of Lausanne in Switzerland in 2001. He completed postdoctoral training and became an assistant professor at the University of Oklahoma. Dr. Zhang joined the Institute for Regenerative Medicine in January 2006. Dr. Zhang's research interests include mesenchymal stem cells, biological scaffolds, cell therapy and tissue engineering for urology and andrology applications, enhanced 3D cell culture for drug development.
